Varun Harish Srivastava

I'm fifth year B.Arch student at RV College of Architecture, Bengaluru.
My journey through the past 5 years has been experimentation, philosophy and design heavy. I love playing with new concepts and connecting architecture with engineering.
I have a strong hand of new technologies and look forward to the future of design with new intelligence.
To know more about me and go through my works in detail- please do visit www.varunharish.com a self-developed site to show my architectural journey!
